## War of the Three Worlds

**\*\*Hello everyone! It's about time I do my Doctor Who/Avengers/Adventure Time fanfics, which is starring the Eleventh Doctor, as played by Matt Smith; this isn't the first time that the Eleventh Doctor has appeared in many of my fics, like Encounter at Lake Sliencko, Halloween Horrors and The Eleven Doctors! He is due to appear in The Time Lord and the Wattersons 3: The Two Doctors, The Time Lord of Hogwarts and many more! Anyways, I don't own Doctor Who, Avengers or Adventure Time, ENJOY! \*\***

The Doctor adjusted his spotty bowtie and ran around the console room till he found his destroyed Cyberman head, Handles.

"Emergency message! Emergency message!" Handles said.

"What is it, Handles?" The Doctor asked.

"Leak in time, located at coordinates, 19, 24, 46, 11", Handles replied.

The Doctor typed in the coordinates.

"Stark Tower? I don't know where that is, but it'll do. Coordinates set, Geronimo!" The Doctor yelled as he flipped some levers, getting the TARDIS ready for its destination.

Tony Stark was fixing his MK VII Iron Man armour, which was damaged because of the Battle of New York.

"Right, JARVIS, have you got the spinning rims?" Tony asked.

"Yes sir, shall I install an air filter?" JARVIS suggested.

"Thrill me" Tony said.

"Emergency! Emergency!" JARVIS announced.

"JARVIS, what is it?" Tony asked.

"Time leak, detected!" JARVIS shrieked.

"Where?" Tony wondered.

"In Stark Tower!" JARVIS yelled as he powered down.

The lights went down, and went into emergency power. The lights now went red, and Tony looked around, he went towards a computer and sent a message to the other Avengers to assemble!

The TARDIS materialised outside Stark Tower. Inside, The Doctor pulled on his purple cashmere jacket and exited the TARDIS, scanning the environment with his sonic screwdriver untilâ€|

"There you are! What took you so long?" The Doctor said.

There was the time leak, swirling like a magical portal. Suddenly, a robot hovered above The Doctor and shot some sort of laser beam into the time leak. The beam rebounded and hit the robot; it was shot far, far away.

"That guy didn't do well, it's my turn" The Doctor said as he adjusted his bowtie once again.

"GERONIMO!" The Doctor yelled as he ran and jumped into the portal.

**\*\*That's the end for this chapter; sorry it's so short, I didn't notice! Anyways there will be more Avengers and Finn and Jake will appear in the next chapter! Anyways I'll be updating Regular Wizards, The Time Lord of Hogwarts, Scooby-Doo and the Blue-Jay, Regular Adventure, The Lion, The Doctor and The Cybermen and Civil War: A Multi-Crossover Event\*\***

**\*\*I'll be making Regular Show/How to Train Your Dragon, Doctor Who/Gravity Falls, Transformers/Avengers, possibly a Civil War tie-in and Scooby Doo/Gravity Falls! \*\***
